Dear Ionelia,

It is my privilege to notify you that by decision of the SEG Honors and Awards Committee and the SEG Board of Directors you have been selected to receive the Society's Outstanding Educator Award.

The Outstanding Educator Award honors individuals for excellence in geophysics education and is awarded to a person who merits such recognition, based on his or her educational qualities and contributions.

Official recognition of your award will take place during IMAGE in Houston, Texas, USA, 28 August – 1 September 2023. Additional details regarding the day and time will be sent closer to the event.

In preparation for this occasion, please invite someone to prepare a written citation for publication in the program booklet and subsequently in *The Leading Edge*. Please complete the attached information sheet and return it to Mandi Duckworth by email (mduckworth@seg.org) by **15 May**. To meet the program booklet production deadline, your citation must be received by **1 June**. We will contact the person you select to write your citation concerning its preparation as soon as you notify us. We will also need a recent photo of you by the **1 June** deadline. In order to maintain continuity throughout the program book, we are requesting a hi-resolution TIF or JPG digital photo of you in business attire. Please send your photo to Mandi. If you have any questions, feel free to contact Mandi at the email address listed above.

On behalf of the Society, congratulations on being selected to receive the Outstanding Educator Award. Your important contributions to the sciences and our profession are greatly appreciated.

Regards,

Kenneth M. Tubman
President
